[Frog Dissection Lab and Answer Sheet - SynDaver](#)

Purpose: In this lab, you will dissect a frog in order to observe the external and internal structures of the frog anatomy SEXING YOUR FROG: Place a frog on a dissection tray. To determine the frog's sex, look at the hand digits, or fingers, on its forelegs. A male frog usually has thick pads on its "thumbs," which is one external difference between the sexes, as shown in the diagram below. Male frogs are also usually smaller than female frogs. Observe several frogs to see the difference ...
